Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how generative AI supports the creative process, and set up an AI creative toolkit — general chat assistants (ChatGPT, Claude, Gemini, Copilot) and an AI image tool — for creative work.
- LO2: Write effective, structured prompts for creative tasks and build a reusable creative prompt library.
- LO3: Use generative AI to define and lock a consistent brand tone, style and voice for a creative project.
- LO4: Apply responsible-use practices to AI creative work — originality, copyright, AI-image rights and transparent disclosure.
- LO5: Draft a brand story, taglines and marketing copy with AI, on a defined brand voice.
- LO6: Rewrite, polish and adapt creative copy for different audiences and channels, iterating with follow-up prompts.
- LO7: Generate visual concepts and on-brand images with AI image tools using effective image prompts.
- LO8: Create a social media content kit and presentation/launch visuals with AI.
- LO9: Brainstorm ideas and build a mind map with AI, then challenge conventional thinking and overcome creative blocks.
- LO10: Combine multiple AI tools into a repeatable creative workflow and present and pitch creative ideas with AI support.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
